

CLIMEX® Fan Heater 42

With 42kW heat output, the CLIMEX® Fan Heater 42 is RVT's most powerful electric heater available for hire. It is fitted with a powerful impeller that can deliver heat through 20m of ducting. It has a variable heat output and optional remote thermostat control for ease of use. The heater also has lockable castor wheels, making it easy to move around on site. This makes it ideal for use in warehouses, large buildings, and most industrial applications. It is also suitable for use in dockyards and ship building.

This heater also has an automatic over-temperature shutdown feature. A warning light will appear if there is a faulty power connection or incorrect usage is detected.

Features & Benefits

- ✔ Over temperature shut down
- ✔ A warning light appears if incorrect usage or a faulty power connection is detected
- ✔ 24v control circuit for safety
- ✔ A remote thermostat option is available

Key Applications

- ✔ Suitable for most industrial applications
- ✔ Dockyards and ship building
- ✔ Warehouses and large buildings
- ✔ A variety of construction heating applications

Technical Specification	
Size H x W x D (mm)	1000 x 700 x 1100
Weight	130Kg
Airflow Rate	3956m ³ /hr
Output	42kw
Supply	400v/ 50hz
Spigot	500mm
Portable	Yes
Ducting length	20m
Overtemp protection	Yes
Phase Protection	Yes
Phase Rotation Relay and Warning	Yes
Manual Reset	Overheat Fail
Power	Safe 63 amp plug
