

CLIMEX®

CLIMEX® 6KW Portable Fan Heater ATEX IECEx

CLIMEX® 6KW Portable Fan Heater ATEX IECEx

The CLIMEX® 6KW Portable Fan Heater ATEX IECEx is the world's first truly portable hazardous area fan assisted heater.

This unit combines efficient design with simple functionality to provide a portable heating solution for use in hazardous environments where the atmosphere is classified as Zone 1 or 2 (IIA, IIB and H2). Certified to the new EN 80079-36 and EN 80079-37 standards for constructional safety, The VENTEX® 300P ATEX IECEx comes ready to 'plug and play' with the option of fitting a plug, or hard wiring to an isolator unit.

Features & Benefits

- ✓ Compact and rigid housing suitable for onshore and offshore usage
- ✓ Portable and lightweight, allowing for single user manipulation
- ✓ The heater can be directed at an engineer working in a larger space, or warm a mid-sized room to a comfortable operating temperature
- ✓ Suitable for ambient temperatures as low as -40°C and up to +40°C.

Key Applications

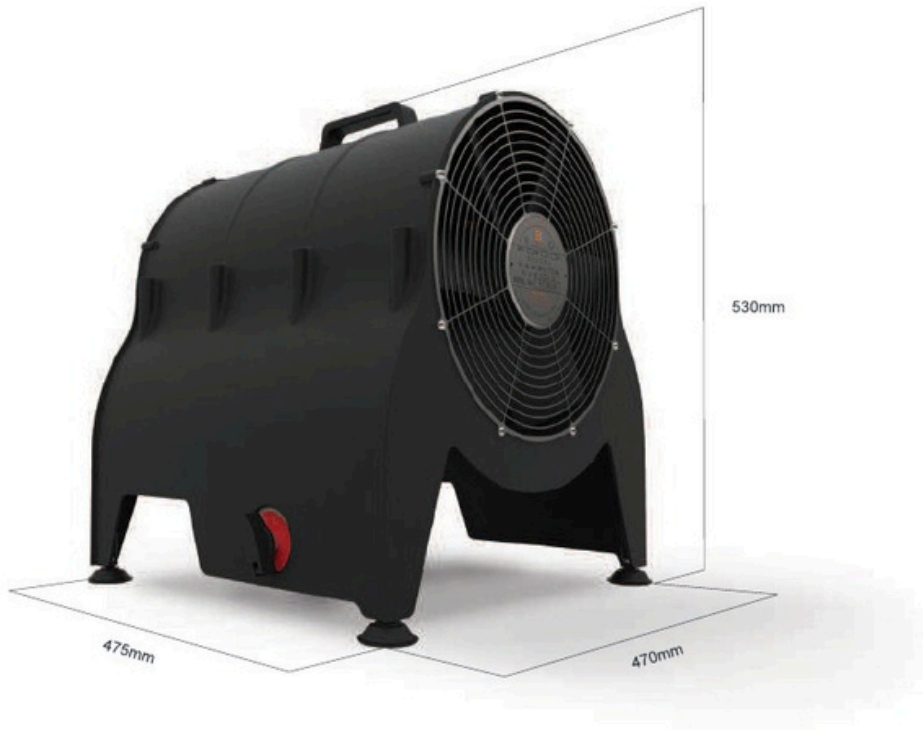

- ✓ Hazardous environments
