

DUSTEX® Hydrmist 35X

A self-contained, mobile dust suppression unit for controlling large-scale dust emissions. The Hydrmist 35X is designed to provide large-scale dust suppression on sites where a water supply is available but power is not.

With a 90-degree automatic oscillation function, the Hydrmist 35X can be set-up to cover wide areas.

By mixing a fine mist of water particles in the air, airborne dust particles are intercepted and pulled to the ground. By dampening down surfaces, dust can be prevented from becoming airborne in the first place.

Wheels enable it to be easily moved around on site. The Hydrmist 35X should only be supplied with clean water.

Features & Benefits

- ✓ 35m throw
- ✓ 90-degree automatic oscillation
- ✓ Requires a dedicated water supply

Key Applications

- ✓ Airborne Dust
- ✓ Dampening down surfaces & stockpiles

DUSTEX® Hydramist 35X

Technical Specifications	Wheeled base	Mountable base
Overall Dimensions	1100 L x 630 W x [965-1910]	1100 L x 630 W x [965-1910]
Vertical Tilt	0° / 30°	0° / 30°
Horizontal Oscillation	90°	90°
Engine/Power	Diesel Yanmar 9.5 Kw	Diesel Yanmar 9.5 Kw
Suppression Distance (no wind)	35 meters	35 meters
Weight	250 Kg	220 Kg
Water Consumption	30 - 40 Lpm	30 - 40 Lpm
Connection Type	Hose connection (3/4 inch G Claw coupling, pictured below)
