

DUSTEX® B4 Vacuum

This powerful M Class vacuum cleaner is designed to meet several construction site demands for managing dust. It has two separate capabilities.

1. Standard vacuum cleaning with the hose and wand attachment to collect settled dust and debris.
2. On-tool extraction for capturing dust via on-tool extraction ports.

The B4 Vacuum has two HEPA filters, a large collection container, and a range of accessories for a variety of cleaning methods. Some other impressive features include:

- Large rear wheels guarantee excellent stability across uneven ground
- Swivel front wheels with brakes which provide superb manoeuvrability around complex work areas
- Intuitive control panel for easy operation
- Flexible collection options allow for debris to be vacuumed safely into a bag or container

Features & Benefits

- ✓ On-tool dust extraction
- ✓ 35 litre dust container
- ✓ Two HEPA filters
- ✓ 99.9% filter efficiency
- ✓ Hazardous M class certified

Key Applications

- ✓ Collecting dry dust and debris
- ✓ Ideal solution for construction dust, such as silica dust and wood dust
