

DUSTEX® DustoMat 10

High-performance extraction with fine filtration capacity and articulated arms for maximum dust capture.

Cleanable cartridge filters ensure a filter system with a long service life and low operating costs. The patented tilt-back mechanism of the filter housing allows convenient disposal of the collected dust. Dust extraction from individual machines and manual work stations.

It can be connected to simple ductwork systems serving multiple machines. Pourable dust types including hazardous dust, hardwood and softwood dust. For the extraction of hazardous dust types, especially mineral dust. Equipped with airflow pressure gauge and manual cleaning system.

Features & Benefits

- ✓ Certified for hazardous dust types
- ✓ High mobility
- ✓ Unique manual rotating brush filter cleaning mechanism
- ✓ Low operating costs
- ✓ Patented tiltable filter section for easy dust disposal
- ✓ Compact design
- ✓ Optional capture arm and vacuum attachment available

Key Applications

- ✓ Joinery workshops
- ✓ On-site wood cutting work stations
- ✓ High Volume floor vacuum applications
