

Confined Space Equipment

Head Torch - ATEX & IECEx

Head Torch - ATEX & IECEx

This Head Torch is designed to be tough, compact and comfortable.

The light-weight and ergonomic design of this head torch delivers high quality light output for maintenance and inspection jobs, rope access and confined space entry. With two light output settings and simple push button operation, users can easily select the required lumen output based on their applications.

It operates at a high level of brightness with a 200 lumen light output combined with a long run-time.
